Edge Type	Square	Surface Finish	UV Polyurethane w/anti-microbial
Embossing	Overall	Locking System	N/A
Attached Pad	No		

Floor Score conforms with the strictest VOC and indoor air quality requirements.

NO TRANSITIONS

The height of our Loose Lay flooring is equal to most carpet tiles allowing the two to meet with no unsightly transitions.

WATERPROOF

Made for projects that include areas which are commonly exposed to topical moisture. It is ideal for wet areas such as kitchens, bathrooms, break rooms, common areas, and basements. This product is unaffected by seasonal changes in relative humidity (RH) which can damage other types of flooring over time.

FLEXIBLE INSTALLATION

Allows for limitless design creativity with endless installation layouts including herringbone, bordering, stacking, and offset installs.

FAST INSTALLATION

Loose Lay flooring combines increased weight with a specialized backing that allows it to be installed without the use of adhesives. The increased thickness hides minor subfloor irregularities which saves time and cost on subfloor preparation.

LOW COST MAINTENANCE

UV cured Polyurethane finish requires no special maintenance procedures or equipment.

COMFORT

The increased thickness of our Loose Lay flooring improves underfoot comfort, sound reduction, and creates a warmer floor when laid over concrete.

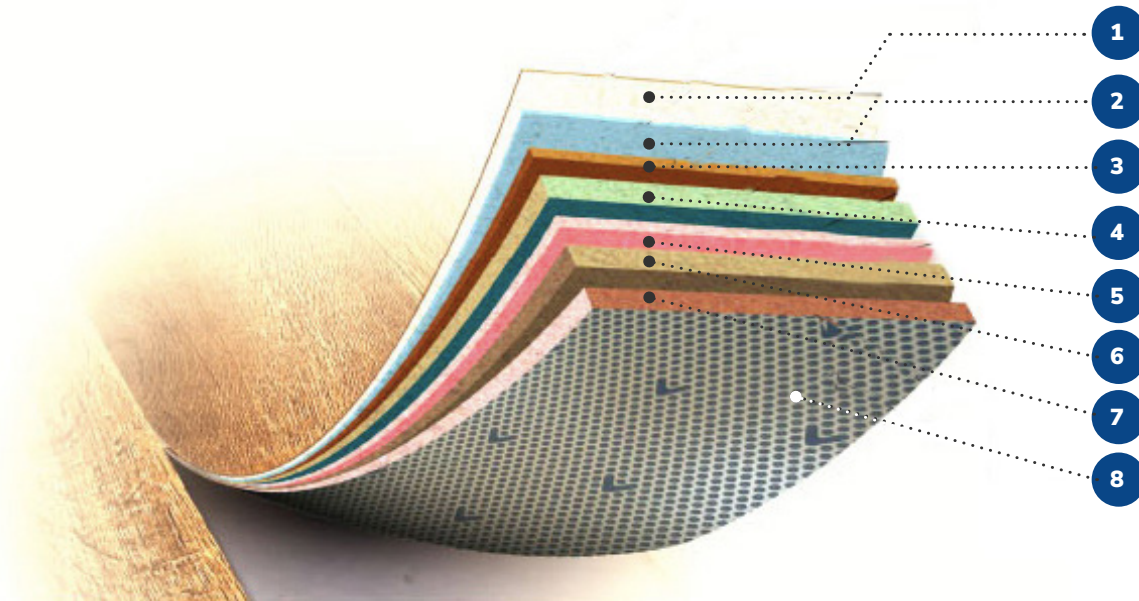

ANTI-MICROBIAL FINISH

Our finish is enhanced with Nano-silver particles that kill bacteria and inhibit the growth of new bacteria on the flooring surface.

LOOSE LAY LUXURY VINYL LAYERS

WWW.SURFACE-EDGE.COM

1

PROTECTIVE COATING

UV cured polyurethane enhanced with anti-microbial treatment

2

WEAR LAYER

Clear PVC film that increases durability and extends the life of the floor

3

DÉCOR LAYER

High resolution print film can be made to look like any surface

4

CORE LAYER

Waterproof core material is flexible for ease of installation

5

FIBER GLASS LAYER

Helps stabilize the product when faced with changes in temperature

6

CORE LAYER

Waterproof core material is flexible for ease of installation

7

BALANCE LAYER

A rigid layer of PVC that counteracts forces from top to bottom

8

BACKING LAYER

Unique pattern of directional ridges provides anti slip properties
