

Saguaro

Hardwood without Limits

REAL HARDWOOD. REAL MOISTURE PROTECTION.

- The beauty and warmth of REAL hardwood flooring.
- 96 hour water block protection from spills.
- Significantly more stable than solid or engineered hardwood when faced with changes in temperature and humidity.
- Rigid, strong, and **100%** waterproof core installs without acclimation.
- Natural hardwood veneer eliminates 'repeat' patterns found in laminate and vinyl flooring.
- Superior dent and scratch resistance. 2x harder than solid oak flooring.
- Attached IXPE pad and Unipush locking technology clicks together easily over existing hard surface flooring without nails or glue.
- Durable and scratch resistant PowerShield™ Finish seals and protects wood surfaces from spills or stains, and may be damp mopped for easy maintenance.
- Perfect for areas with increased moisture and humidity, including kitchen, bath, and basements.

CONSTRUCTION

1.2mm Solid Wood Veneer
4.8 SPC Core
1.0mm IXPE Backing

} 7mm Overall
