**NO ACCLIMATION**
Can be installed as soon as the flooring arrives on site which significantly reduces costs and allows for faster turnarounds.

**WATERPROOF**
Real wood flooring that warrants up to 96 hours of water protection from spills.

**DENT RESISTANT**
The high density SPC core increases the dent resistance of the real wood veneer to over 2 X harder than solid oak flooring.

**SOUND REDUCTION**
Attached IXPE pad reduces sound transmission within a room as well as to the room below.

**INCREASED STABILITY**
Waterproof Wood structure reduces the effects of changes in temperature and humidly. Results in less cupping, gapping, and surface cracking.
